

WebIntelPro Enterprise X

https://nimbus.example/

Overall score: 78/100 (grade C) SEO 91 | Security 45 | Performance 100 | Accessibility 82

Prioritized recommendations

Severity	Area	Issue	Recommendation
HIGH	Security	No Content-Security-Policy	Add a CSP header to mitigate XSS and data-injection attacks.
MEDIUM	Security	No X-Frame-Options	Set X-Frame-Options: SAMEORIGIN to prevent clickjacking.
MEDIUM	Accessibility	1/3 images missing alt text	Add descriptive alt attributes (empty alt for decorative images).
LOW	Security	No Referrer-Policy	Add a Referrer-Policy header to limit referrer leakage.
LOW	Security	No Permissions-Policy	Add a Permissions-Policy header to restrict powerful browser features.
LOW	Security	Stack disclosed via X-Powered-By: PHP/8.2.15	Remove or obscure the X-Powered-By header to reduce fingerprinting.
LOW	SEO	Incomplete Open Graph tags	Provide og:title, og:description and og:image.
LOW	SEO	Thin page content	Add more substantive text content for search relevance.
LOW	Accessibility	No landmark regions	Use , , , for screen-reader navigation.
